

## ATTENDANCE BOUNDARIES

The School Board shall establish boundary lines for all districts and shall determine the school to which children in border areas shall attend. The Board believes that wherever possible there should be an equalization of room enrollment, and in the interest of what is best for both the teacher and the child, shall require the superintendent to make such adjustments as are necessary to change slightly the District boundaries that presently exist. This may be made necessary because of existing facilities and the unequal growth of certain areas of the city.

The following boundaries establish the attendance centers within the district:
