

## EXTRACURRICULAR ACTIVITIES/PRACTICES - INCLEMENT WEATHER

The superintendent has the authority to determine whether athletic contests or performances are held when school is postponed due to inclement weather. The safety and well-being of students will be considered in all weather-related decisions.

Announcements regarding athletic contests or performances will be made on the local radio stations and District website as soon as a decision is made regarding these contests or performances.

When school is dismissed early due to inclement weather, high school practices may be conducted with permission of the high school principal or the athletic director. None of the practices or meetings held on that day is mandatory for any high school athlete or student to attend.

All Middle School and elementary practices will be canceled on days of early dismissal due to inclement weather.
