

STUDENT ACTIVITIES FUND

Trust and Agency Accounts, including Student Activity Accounts, are used by the District for the purpose of accounting for the financial activity of various clubs and organizations that are affiliated with the District. Staff members who wish to have a receipt book to use whenever money is received that is credited to the Student Activity Account may request such receipt books from the building principal or business office. School clubs and organizations are not permitted to incur debt without the prior knowledge and consent of the building principal, the club/organization advisor, and the business manager.
